www.landerschools.org

Lander Valley High School issues a Chromebook computer for each student's exclusive use throughout their school year. This is the second year of our school-wide "one-to-one" initiative. We have seen increases in student engagement, and we've created a learning environment fostering critical thinking, collaboration, communication, and creativity.

Students may still choose to bring their own device (BYOD) but LVHS will provide a Chromebook to each student who chooses not to bring their own device.

There are expectations that LVHS staff will have regarding students and their devices. Parents need to also be aware of these guidelines and expectations for usage, as using a school-owned device.

More detailed information is available on our website at http://bit.ly/LVHS-One-to-One (link points to our website).

Before signing and returning this form, it's important that you have received and understand this information and the responsibilities of Chromebook usage. Damage and loss are the responsibility of the student and parent.

If you have questions that are not answered by the website, you may contact Carrie Johnson (Technology Instructional Facilitator) at LVHS, or contact the Main Office at LVHS.

_____ My student will be bringing their own device to use for school and will not be needing a school owned Chromebook.

>>>>>>>>>>>>>>>>>>> <<<<<<<<<<<<<<<<<<<

By signing this form, I approve of my LVHS student receiving a school-owned Chromebook for the school year. I have read and agree to the responsibilities and terms outlined in the documents on the website.
