### Governor's RIDE (Reimagining and Innovating the Delivery of Education) initiative

In May, 2021 Governor Gordon announced the launch of an effort to lead Wyoming's education system into the future. The RIDE Advisory group's overarching goal is to help elevate Wyoming's primary and secondary education system into a position of national leadership.

The RIDE Advisory Group will hold a series of moderated community listening sessions in the coming weeks that will build upon the results of the survey. The information collected will be developed into a set of recommendations for the Governor that will include specific actions to improve the education system in Wyoming.

So that facilitators may provide adequate meeting space, an estimated number of participants is required. To participate, please register with the link below.
