

Science Performance Assessment Task Development

A Professional Learning Series

Platte County School District #2 Invites You to Participate in a 1.5-Year Series Aimed at:

1. increasing science assessment best practice among educators in the cohort,
2. creating, modifying, and refining standards-aligned science assessments at multiple grade bands, and
3. increasing access to standards-aligned science assessments for all Wyoming educators through a repository

August sessions will be held in Laramie (travel stipend available), and all other sessions will be virtual. Those who attend all sessions will earn a \$2,400 stipend (substitute funding also available). **Space is limited so apply today!**

- August 8-10, 2022 (in-person, full days)
